

Aliento: Jesús Muñoz Flamenco, Red Note

Red Note takes us on a journey through southern Spain as internationally renowned artists highlight the evolution of Flamenco's dance and music.

Casa Flamenca and the NHCC present Jesús Muñoz Flamenco in *Red Note*. Borrowed from the tastefully symbolic "Blue Note Jazz Club," *Red Note* explores dynamic, visionary movements in dance, music, and visual art inspired by *cante Flamenco*.

Like jazz, Flamenco has its roots in raw, intimate improvisation upon standard structures. It improvises through interpretations of the structures of *cante jondo*, or deep song. *Red Note* features original music and works composed and performed by a cast of international dancers and musicians.

Jesús Muñoz is famous for having created a unique original method and rhythm fusing his American roots with traditional Spanish influence. He has been called "riveting" and a "jazz session artist," with the live-performance direction of an orchestra conductor.

The world-class ensemble, dedicated to creating a unique improvisational structure that can adapt to both traditional and contemporary methods, features original works and national and international guest artists every season.
