

Cine-Club: 'Animals'

SPAIN arts & culture Cine-Club is back with an unconventional coming-of-age tale blend of fantasy and cold reality.

Seventeen-year-old high-schooler Pol has stubbornly extended his childhood, aided in no small measure by his opinionated, drums-playing, English-speaking pet teddy bear, Deerhoof. But when he meets alluring new student Icarí, the safety of Pol's innocent imagination crumbles as he experiences his first pangs of love and sexual longing. But what will happen to Deerhoof in this new world and can Pol accept his new-found feelings?
